

Part A: Table of contents

Slide #		Slide #
	■ Factors causing erroneous results.....	7
	■ Instrumentation discussed.....	8
	■ Electrical Impedance.....	9
	■ WBC histograms.....	12
	■ RBC histograms.....	13
	■ Platelet histograms.....	14
	■ Cyanmethemoglobin method.....	15
	■ VCS technology.....	16
	■ Scattergram plots.....	17
	■ Measured parameters.....	19
	■ Calculated parameters.....	20
	■ Confirmation of results.....	21
	■ Case 1: dimorphic RBCs	22
	■ Case 2: microcytic normochromic anemia	26
	■ Case 3: megaloblastic anemia	30
	■ MCHC \geq 37 g/dL flowchart.....	34
	■ Case 4: cold RBC agglutinin	35
	■ Case 5: lipid metabolism disorder	42
	■ Case 6: lipemic sample	46
	■ Case 7: relative polycythemia	49
	■ Case 8: essential thrombocythemia	52
	■ Case 9: platelet EDTA clumper	56
	■ Case 10: lead poisoning	61
	■ Case 11: beta thalassemia major	65
	■ Case 12: sickle cell anemia	69
	■ Case 13: infectious mononucleosis	73
	■ Case 14: bacterial infection	77
	■ Case 15: monocytosis	81
	■ Case 16: eosinocytosis	85
	■ Case 17: acute lymphocytic leukemia	89
	■ Case 18: chronic lymphocytic leukemia	93
	■ Case 19: chronic lymphocytic leukemia	97
	■ Case 20: chronic myelogenous leukemia	101
	■ Case 21: acute myelogenous leukemia	105
	■ Case 22: pancytopenia	109
	■ Case 23: multiple myeloma	113
	■ Summary.....	118
	■ Conclusion.....	120

6

Part B: Table of Contents

Slide #		Slide #
	■ Factors causing erroneous results.....	7
	■ Instrumentation discussed.....	8
	■ Electrical Impedance.....	9
	■ WBC histograms.....	12
	■ RBC histograms.....	13
	■ Platelet histograms.....	14
	■ Cyanmethemoglobin method.....	15
	■ VCS technology.....	16
	■ Scattergram plots.....	17
	■ Measured parameters.....	19
	■ Calculated parameters.....	20
	■ Confirmation of results.....	21
	■ Case 1: monoblastosis	22
	■ Case 2: bacterial pneumonia	31
	■ Case 3: WBC clumper & CLL	41
	■ Case 4: prostate cancer metastasis	35
	■ Case 5: anaplastic large cell lymphoma	71
	■ Case 6: hereditary spherocytosis	84
	■ Case 7: normal neonatal CBC	93
	■ Case 8: severe anemia	104
	■ Case 9: lipemic specimen	115
	■ MCHC \geq 37 g/dL flowchart.....	118
	■ Case 10: polycythemia vera	128
	■ Case 11: iron deficiency anemia – untreated	137
	■ Case 12: iron deficiency anemia – treated	146
	■ Case 13: macrocytic anemia	155
	■ Case 14: immune thrombocytopenia	166
	■ Case 15: platelet satellitism	176
	■ Summary.....	184
	■ Conclusion.....	186
