Clinical Laboratory Scientist & Medical Laboratory Technician Review Seminars Directed Toward California Licensure

A review course in preparation for California approved CLS and MLT licensing/certifying examinations
(This review course is not eligible for continuing education credit for current CLS, MLT, or CPT licensees)

Dora W. Goto, MS, CLS, MLS(ASCP)^{CM}; Program Director and Instructor

8:30 am – 6:00 pm (February 11, 12, 25, 26 and March 11, 12, 2017)

**John Muir Medical Center
2540 East Street, Concord, CA**

Sponsored in part by: John Muir Health

Objectives of review seminars: Review seminars developed and presented from an appropriate curriculum may provide guidance when preparing for licensing/certifying examinations. Having better prepared candidates for licensure may increase the number of qualified individuals who pass the licensing/certifying examinations and may be employed in the analysis of clinical specimens.

Purpose of collecting post examination test scores: CAMLT will be collecting post examination test status to help determine the efficacy of review seminars directed toward California licensure. The purpose of maintaining practice and post examination statistics is to continuously update curriculum reviewing the subject matter evaluated by licensing/certifying examinations and to determine if the curriculum developed will improve test scores of candidates for licensure.

Techniques: A curriculum will be presented for review seminars that will include the following topics:

Clinical Chemistry	Hematology	Mycology	Bacteriology
Serology/Immunology	Urinalysis	Virology	Parasitology
Immunochemistry	Quality Assessment	CA Laboratory Law	Safety/Specimen Collection

All topics will be presented as examination review six-day seminars. In addition, test strategies unique to licensing/certifying examinations will be discussed. **Registrants will be asked to participate in a study (at no additional cost), which include a scored practice examination and the collection of licensing application status. Registrants are free to choose not to participate in this study and attend the seminar only.**

Seminar Registration Fee: \$80 per day or \$375 for six days
(complete and return registration form to attend seminar)

Study Participation: no additional cost
