Abbie Beran
Clinical Laboratory Professional of the Year 2018

The CAMLT honoree for 2018 Clinical Laboratory Professional of the Year, Abbie Beran, was introduced to CAMLT during her college years at California State University Chico. She did her training out of state, and after getting her California license, joined CAMLT. In 2004, she chose to become a Lifetime member.

Abbie has served her chapter as President Elect, President, and Past President and serving as chapter representative to the CAMLT Board three times. Her hard work for her chapter has resulted in Chapter Newsletter awards and the Berenice Stevens Chapter Recognition award.

Abbie has served her District by working on at least three state convention committees, by chairing a committee and serving a term as District Consultant on the CAMLT Board of Directors.

In addition to District Consultant, Abbie has served on the state level as Nominations Committee Chairman, Secretary and a term as a member of the Judicial Committee. All of these are elected offices.

Abbie’s chapter hopes they can help her fulfill her wish of hosting a webinar to provide CEUs from the chapter.

Abbie is currently Facilities Coordinator for Doctors Hospital of Manteca and fills her spare hours with crafts, canning and candy making for use as Christmas gifts. Her fondest memory is of proposing the merging of San Joaquin County chapter, Stanislaus County chapter and chapters in the foothills to form the Central California Counties Chapter and presenting this to the CAMLT Board of Directors and the House of Delegates for approval. Her chapter’s nomination letter says it all: “Her passion for CAMLT is undeniable”.

Abbie took advantage of a trip to Scotland that interfered with her attendance at the Garden Grove Annual Meeting. Her chapter president, Maria Aliferis, nominated Abbie for this honor and was able to attend and acknowledge Abbie’s award presentation (below). As shown in the picture above, Abbie now has the plaque in her possession, and her name has been added to the perpetual plaque on display in the CAMLT Executive Office in Fremont.

Also In This Issue...
ASKING AND ANSWERING THE BIG QUESTIONS

Are you ready to launch the New Year? Our organization has just held our annual convention and celebrated its 79th year. The coming year, our 80th, will be not only celebratory, but absolutely defining as to how the organization and our laboratory professions will be represented by members and lobbyists going forward.

Tough questions will be asked. We ask for your help with answers.

» How has CAMLT helped you to grow as a professional?
» What have you learned from participating in our events?
» Has our job board helped you?
» Have you taken advantage of our partners to get discounts on entertainment and travel?
» Do you prefer that we spend most of our income defending our livelihood and license?
» How can we fundraise to meet our goals?

Those are the professional questions.

Here are some personal questions:

» For whom are you responsible?
» When have you felt truly heard and understood?
» What could you sacrifice to repair the world?
» Is the life you are living today aligned with the most important things you have learned?

* WE HAVE A LEGACY TO CONTINUE! WON’T YOU CONSIDER PARTICIPATING IN CHAPTER AND STATE-WIDE EVENTS?

* HELP US GET NEW MEMBERS AND ENCOURAGE THOSE WHO DO NOT JOIN TO SUPPORT US FINANCIALLY!

* WE HAVE DEFENDED THE PROFESSION FOR SO MANY YEARS WITHOUT THE FINANCIAL SUPPORT OF 90% OF THE CLSs!

Many people were not prepared for the election results of 2016 and 2018. Are you prepared for changes in our profession and organization? Be active in CAMLT and lead the way!

Happy Holidays to you and yours
Ilene Dickman, President
HOUSE OF DELEGATES DISCUSSES MAKING OUR ORGANIZATION MORE RELEVANT

The 2018 House of Delegates convened on Saturday, September 29th following the Lab-PAC Walk/Run. Delegations from almost every chapter across the state participated in the day-long conclave, representing their constituents, CAMLT members.

New members of the Board of Directors as well as members of the Nominations and Judicial committees were nominated, encouraged to speak to the Delegates, and then elected by the Delegates. The members of the Judicial and Nominations Committees were installed during the House session, and the new members of the Board of Directors were installed in the evening at the Installation Banquet. Following are the newly elected officers:

Board of Directors:
- Valerie Trenev, President-Elect
- Joyce Ma, Secretary
- Danuta Bowler, District II Consultant
- Marc Bernaldez, District IV Consultant

Judicial Committee Members:
- Debbie Revier
- Janice J. Krivochiev
- Abbie Beran

Nominations Committee Members:
- Melissa Bolick, District I
- Nick Hopkins, District II
- Teresa McNutt, District III
- Alan Wolfe, District IV
- Sean Revier, District V

In the afternoon, the Delegates broke into discussion groups and each group was given a challenge to work on. Here is some of the input that came out of these discussions and will lead to the creation of measurable objectives that we will work to implement in the coming year.

- **CAMLT needs new branding to improve our visibility.** We will now include who we are with our name: “Serving Clinical Laboratory Professionals”.
- **Fundraising – We need more funding for our lobbying efforts.**
- **Being More Inclusive - Invite Biotech and industry representatives, as well as clinical professionals, to join.**
- **Punch-Up our legislative agenda – Make it easy to follow.**
- **Increase chapter participation by working in pairs and giving specific duties to volunteers.**

At the conclusion of the session, the members of the 2019 Convention Committee from Districts I & III invited everyone to join them next year in Sacramento, “Where CAMLT advocates for your profession!”
2018 CAMLT CHAPTER AWARDS PRESENTATIONS

Each year, CAMLT honors the individual chapter that does an outstanding job of keeping up a personalized communication with their members. The chapters must submit two different samples of these communications to the award committee chairman. Traditionally, these have been printed newsletters, but electronic communication is becoming quicker and cheaper than the printed word. This year’s winner was a traditional style newsletter whose wonderful samples were displayed at the Annual Meeting. The 2018 Chapter Newsletter award was presented to the Central California Counties Chapter of District I for the “Labline”.

Right: Kathleen Doty presented the 2018 Chapter Newsletter award to Maria Aliferis, President of the Central California Counties Chapter.

The next award honors the efforts of the entire chapter. This is the Berenice Stevens Chapter Recognition Award. Berenice Stevens was a founding member of CAMLT. As such, she was passionate about the safety of health care for the California public. The criteria for this award include the ways Berenice Stevens helped build a strong foundation for CAMLT:

- Chapter activities, including participation in local community events
- Sponsoring continuing education events for members
- Being politically active to further CAMLT’s mission
- Member recruitment and retention

CAMLT is proud to present the Berenice Stevens Chapter Recognition Award for 2018 to our very active Fresno Chapter, District III.

Left: Kathleen Doty presented the 2018 Berenice Stevens Chapter Recognition Award to Fresno Chapter Delegates Apollo Olaes IV and Claudia Soriano.

It’s worth noting that these two chapters have taken turns winning these awards multiple times throughout the years. What dedicated members!
Magical Fun-Nite

The theme was magic and it was a magical night at the 2018 CAMLT Fun-Nite! Revelers enjoyed the intriguing magic of a real magician! The crowd was treated to several different card tricks that mesmerized everyone. Best of all was a wonderful game that was played based upon names of various songs with the word “magic” in the title. It was fun to reminisce and try to guess what special tune it was. “Do you believe in magic?” started off the list! There were lots of prizes - compliments of one of our CAMLT sponsors: Fusion Medical Staffing!

The food was a delicious buffet of chicken, fish, pasta, a variety of veggies and salad. The mood was festive and fun. Debbie Revier hosted and really went all out to make it a great time. It was fun to see many people from all over the state. We had a good showing of students. Longtime SLO Chapter CAMLT member Marjorie Davis had the honor of coming from farthest away as she made the journey down from Star, Idaho where she has been living with her daughter.

All the fun was held at the Delta Marriott just steps from Disneyland in Anaheim. Plan to be a part of the action in 2019 when we will be in Sacramento!
E&R Scholarships and Grants Awarded in 2018

Throughout the year, CAMLT’s Education and Research Foundation awards workshop, membership and student scholarships and grants. We are pleased to announce the winners for the 2018 year:

**Workshop Grants** of a full-day certificate for continuing education at a CAMLT Seminar were given to:

- Alice Roque
- Kenneth Miyake
- Mona Shepard
- John H. Burke
- Eleanor Kelley Award, also a CE certificate was presented to:
  - Lori Gillaspy
  - Sheri Hall
  - Martha Obeso
- **Ruth Baldwin Award**, a one-year professional membership was given to:
  - Alicia Triplett

**Student Scholarships and Grants** were awarded during the Student Forum at the 2018 CAMLT Convention in Anaheim/Garden Grove. CLS Students from across the State in approved training programs and in attendance were eligible for the annual grant drawing awarded by the Education and Research Foundation.

**Clinical Laboratory Internship Grants** of $500 were given to:

- Abigail Dimacali, CSUDH
- Nicholas Hopkins, SFSU
- Brittany Stephens, VCH

**Student Stipend Grants** of $100 were given to:

- Andy Le, LLU
- Yen Lu, UCI
- Olivia Ortiz, VCH
- Cesar Pena, CSUDH
- Cristina Simonian, CSUDH

Below: Student Stipend recipients.

Above: Debbie Revier, E&R Chair, with Alicia Triplett, Ruth Baldwin Award recipient.
Consider a donation to Lab-PAC. Through Lab-PAC you can help support candidates for state legislature who are in tune with the issues facing clinical laboratory science. A contribution to Lab-PAC insures that your voice is heard. Your voluntary contribution, when added to the contributions of others, makes a real difference.

The annual CAMLT Lab-PAC “Share the Wealth” Fundraiser and Drawing takes place during the CAMLT Annual Meeting. Tickets are available all year round at State Seminar Events and at some Chapter Seminar Events. 50% of all ticket sale proceeds go toward prizes:

- **First Prize:** 30% of total proceeds up to a maximum of $3,000
- **Second Prize:** 15% of total proceeds up to a maximum of $1,500
- **Third Prize:** 5% of total proceeds up to a maximum of $500

The 2018 Lab-PAC “Share the Wealth” Drawing winners are:

- **First place:** Debbie Revier
- **Second place:** Valerie Trenev
- **Third place:** Jim McFarland

Congratulations to all the winners!

L to R: Ilene Dickman, President, CAMLT; Senator Janet Nguyen (R) 34th district, and Dora Goto, Immediate Past President, CAMLT at Lab-PAC Luncheon.

Carl London (L) and Russ Noack (R), Public Policy Advocates, CAMLT’s advocates in Sacramento.
Student Forum 2018 - Anaheim - Garden Grove

Rebecca Rosser, SCMMG (Kaiser) Regional Laboratory and Cheryl Jackson Harris, California State University Dominguez Hills, had the opportunity to host the 2018 Student Forum at the CAMLT Annual Convention in Anaheim-Garden Grove. CAMLT President Ilene Dickman gave a short message to the audience and a welcome to our future Clinical Laboratory Scientists.

The future is bright for these aspiring clinical laboratory scientists who seek opportunities for growth in the field. The keynote speaker was Payman Nasr, PhD a professor at CSU Dominguez Hills. Dr. Nasr gave an inspirational talk. His theme was “Life is Either a Daring Adventure or Nothing”. He spoke about his road from hearing loss leading to a diagnosis of brain cancer. Rising above his personal challenge, Dr. Nasr made a commitment to help the health care system in Cameroon.

Breakout sessions followed Dr. Nasr’s presentation. These breakouts were organized for audience participation. Various topics were distributed throughout the room to allow discussion of individual areas of clinical laboratory medicine. Each group had a seasoned CLS present along with CLS trainees and students interested in clinical laboratories. These discussion groups were spread throughout the room for adequate questioning and answers.
Student posters were presented on a variety of topics. The top three posters were awarded and gifts given. The first prize was given to Olivia Ortiz at Valley Children’s Hospital with the poster title - “Advantages/Disadvantages of Stool Culture v/s FilmArray”. Second prize was given to Abigail Dimacali, Cesar Pena, Cristina Simonian and Edgar Yuzon from Children’s Hospital Los Angeles for “Laboratory Testing for Chronic Granulomatous Disease: The Magic of Dihydrorhamine Flow Cytometry”. Third prize was given to Mark Davis and Kenleigh Umali from Kaiser Regional Lab North Hollywood & Good Samaritan for “Scleroderma and Laser Speckle Contrast Analyzer (LASCA)”. 

Finally, during the Student Forum at the 2018 CAMLT Convention in Anaheim-Garden Grove, eight fortunate CLS Trainees learned that their names had been chosen in the annual drawing for Student Scholarships awarded by the Education and Research Foundation. All student members from approved training programs attending the convention are eligible for the drawings held each year in the fall. For 2018 the three Clinical Laboratory Internship Awards of $500 were given to: Brittany Stephens, CLS Trainee at Valley Children’s Hospital, Nick Hopkins, CLS Trainee at Alameda - Highland General Hospital in Oakland - San Francisco State University CLS Training program and Abigail Dimacali, CLS Trainee at Children’s Hospital Los Angeles - CSU Dominguez Hills CLS Training program. The five Student Stipend Awards of $100 were given to student members. Once again, congratulations to our student members.

CAMLT hopes this year of student membership will lengthen into an active relationship which will bring benefits to members and to our lab community.

CAMLT POLITICAL UPDATE

LEGISLATURE

The California Legislature’s final day and night of the second year of the two-year legislative session ended in the early hours of August 31/September 1. The beginning of 2018 saw the Legislature spend a fair amount of time grappling with the issue of alleged inappropriate behavior resulting in several vacancies. The last vacancy was filled via special election on August 7. Vanessa Delgado (D), has been elected to represent SD 32 in Southern California. The end of the legislature, up until the last hours of the session, was dominated by both houses trying to pass legislation to assist in the massive fire catastrophes California has faced and will continue to face.

This session was not unlike every other over the 20 plus years that we have represented CAMLT. Though California requires higher laboratory personnel standards and requires licensing, every legislative session is marked by other allied health professions trying to expand their scope of practice to perform laboratory tests without the requisite education or lab director—pharmacists, primary care clinics, plasma collection centers, naturopaths, optometrists and chiropractors for starters. Without CAMLT, these many attempts to dilute standards and require licensing law would have succeeded.

RECRUIT NEW CAMLT MEMBERS! CONTRIBUTE TO LAB-PAC!

This last legislative session was rigorous in terms of bills legislating a frontal attack on the laboratory professions, depleting CAMLT resources. As expected, in the current legislative session, we are encountering the reintroduction of legislation that CAMLT and Public Policy Advocates successfully stopped from advancing in recent past legislative sessions. Only you can ensure the growth and vibrancy of a strong, well financed, well organized CAMLT to protect the best possible patient safety in laboratory testing and the preservation of your critical profession. Rise to the challenge. Recruit members to your professional organization—CAMLT. Contribute to LAB-PAC. Educate your own legislators. Only this will secure your future and the future of the patients that you serve.

LEGISLATION

The following is a partial list of key legislation that PPA tracked or lobbied on behalf of CAMLT for the 2017-2018 session. Check the website for updates on bill status, Legislator lists, and Committee assignments.

AB 613 (Nazarian), Healing Arts: Clinical Laboratories, as amended 8/21/18 — OPPOSE

• Would allow Unlicensed High School graduates to perform the moderately complex total protein refractometer test on potential plasma donors at plasma collection centers.

• Standards outlined in the bill for unlicensed personnel/assistants performing this test do not ensure the health and safety of plasma donors.

This measure is the reintroduction of AB 757 (Gomez) that CAMLT opposed and was ultimately vetoed by the Governor in 2015 due to concerns that the standards outlined in the bill for persons to perform this test does not ensure the health and safety of plasma donors. AB 613 authorizes a person with training set forth in the bill that meets the requirements for unlicensed personnel but allows non-qualified personnel under California laboratory law (BPC 1206.5(b)) to perform moderate complexity testing with regard to plasma. AB 613 would allow lesser trained and educated persons than currently permitted by law to perform a total protein refractometer analysis, categorized as a moderately complex test by the Food and Drug Administration, in a licensed plasma collection facility. If the protein refractometer test and/or calibration is done incorrectly there is potential to cause donor harm. AB 613 is sponsored by the Plasma Protein Therapeutics Association and is supported by Griffols and the California Chronic Care Coalition. Location: CAMLT had asked for a veto but the Governor signed AB 613 into law on September 27.

AB 1627 (Chen) Clinical Laboratories: Certified Phlebotomy Technicians: Blood Withdrawal. As amended 6/28/18 - OPPOSE. Amendments to the measure are italicized.

• Authorizes CPTs to withdraw blood for laboratory tests from a peripheral venous catheter.

• This bill poses a threat to the health and safety of patients in an effort to expand the use of the PIVO device for blood withdrawal.

AB 1627 authorizes clinical laboratory personnel who are licensed to perform tests called for in a clinical laboratory, to perform blood collection from as well as flushing of a peripheral venous catheter (PVC). The measure would also require the State Department of Public Health (DPH) to include education and training on blood withdrawal, including flushing, of a PVC. Applicants must have at least 40 hours of didactic instruction, at least 40 hours of practical instruction, at least 50 successful venipunctures, and at least 50 successful blood withdrawals from a peripheral venous catheter. The DPH shall revise the regulations for certification as a certified phlebotomy technician to
Include education and training on blood withdrawal from and flushing of a peripheral venous catheter before January 1, 2021. CAMLT does not feel that any revision in the statutory or regulatory language could prepare CPTs for the care and management of peripherally inserted intravenous catheters. Such care and management include stopping intravenous infusions, flushing catheters with saline, evaluating the integrity of the intravenous site and re-starting the intravenous infusion after blood has been withdrawn. These judgments should be made by nursing or medical staff. This bill poses a threat to the health and safety of patients in order to use the PIVO device for blood withdrawal. This measure is sponsored by Velano Vascular, the makers of the FDA cleared device that allows blood to be drawn through an IV catheter. Opposition of record includes CAMLT, the California Nurses Association/National Nurses United, and the AIDS Healthcare Foundation. Location: AB 1627 was sent to the Senate Appropriations Suspense file due to the measure’s fiscal component, where it died on 8/16/18.

AB 2281 (Irwin) Clinical Laboratories: Licensed Medical Laboratory Technicians, as amended 6/12/18 - WATCH

- Would expand Medical Laboratory Technician scope of practice to include moderately complex blood smear reviews other than manual leukocyte differentials, microscopic urinalysis, blood typing (ABO/Rh testing) and antibody screen.

Existing law provides for the licensure, registration, and regulation of clinical laboratories and various clinical laboratory personnel by the State Department of Public Health. Existing law also requires a medical laboratory technician to be licensed by the department, sets forth the duties that a licensed medical laboratory technician is authorized to perform, and prohibits a licensed medical laboratory technician from performing microscopic analysis or immunohematology procedures. This bill would exempt from that prohibition blood smear reviews, microscopic urinalysis, blood group typing and antibody screen of moderate complexity. Location: AB 2281 was enrolled and signed by the Governor; this law will be effective January 1, 2019.

HAVE YOU MEET WITH YOUR LEGISLATORS?

They are at home in their districts until January. Make sure to educate your elected officials about clinical laboratory issues! Meet with your legislators in your district, send letters explaining CAMLT’s philosophy, invite legislators and their staff to tour your laboratories, and introduce yourself as a constituent.

Which Legislator represents your home or laboratory? Visit the current roster of Legislators and the cities they represent on our website or posted at: http://www.legislature.ca.gov/legislators_and_districts.html

Visit their offices. Make an appointment with your Legislators’ District offices.

EDUCATE! Explain to Legislators and their consultants what it takes to be a CLS, MLT or CPT; what you do; why it is important to maintain the integrity of the Laboratory Director when other personnel are doing laboratory tests, even if they are waived; why other allied health providers shouldn’t be Laboratory Directors; the laboratory personnel shortage and what it takes to eliminate it.

Make it a priority to meet with your Legislators. Remember, these interactions are integral components of your grassroots program. For tips, please refer to the CAMLT Grassroots Guide and Talking Points on the website.

STRENGTHEN YOUR VOICE: CONTRIBUTE NOW!

Please donate to the CAMLT Lab-PAC fund. Lab-PAC is a critical means of supporting and electing Legislators to the California Legislature who share a like-minded philosophy with CAMLT and who are open-minded to learning the issues and challenges facing your profession. Encourage the colleagues you work with. Get your chapters and chapter members to contribute. Talk to your vendors. Get involved! Your voice in the political process is much louder as CAMLT than as an individual. Contribute to the collective resources of CAMLT to grow your political clout. Visit the Lab-PAC Page for a donation form or to donate online. Your gift in any amount will help your profession. Contribute now!

Please mail donations made payable to:
CAMLT Lab-PAC
39656 Mission Boulevard, Fremont, CA 94539
Please write a check or donate online to Lab-PAC NOW!
**CAMLT DISTANCE LEARNING COURSES (Revised 3/25/18)**

CAMLT is approved as a provider of continuing education programs in the clinical laboratory sciences by the California Department of Public Health as a CA Accrediting Agency (#21).

Permission to reprint any part of these articles, other than for CAMLT credit, must be obtained in writing from the CAMLT Executive Office.

CAMLT’s Got a Little List, We’ve Got a Little List…

WHEN YOU WISH UPON A STAR, as they say, dreams can come true. But what if the Star has the wishes? We know you think CAMLT is a stellar organization for laboratory folks. Maybe you feel you have benefited personally from CAMLT’s programs – met some great people, attended seminars that helped you grow in your profession, learned about the legislative process and how each of us can become involved. Maybe you would like to return the favor by helping to fund one of CAMLT’s excellent programs. Or maybe you would like to fill an immediate, concrete need for the organization. Well, we have just the thing for you…our CAMLT Wish List!

Wish List Donors

We extend our sincere thanks to the individuals who have contributed to CAMLT’s Wish List from Dec 1, 2017 to Nov 30, 2018.

Arthur Anymoredonuts  Fresno Chapter CAMLT  Frank A. Ritenour  
Corinne C. Carroll  Gemini Bio Products  Thomas Van Der Heide

For those who have given in the past, thank you. Your kindness is appreciated and valued by all!

Please Note - “Contributions or gifts to California Association for Medical Laboratory Technology are NOT tax deductible as charitable contributions for income tax purposes. However, they may be tax deductible as ordinary and necessary business expenses subject to restrictions imposed as a result of association lobbying activities. CAMLT estimates that the non-deductible portion of your contributions - the portion which is allocable to lobbying - is 33%.”

CAMLT asks you to contribute to one or both of these worthwhile entities:

LAB-PAC
The CAMLT Political Action Committee helps your association advocate on behalf of you and your profession. Help support quality clinical laboratory medicine in the California legislative arena.
LAB-PAC contributions are NOT tax deductible.
You must be a U.S. citizen to donate.

Education and Research Foundation
Your tax deductible contribution supports scholarship programs, outreach efforts and students pursuing careers in the clinical laboratory sciences.
Separate checks should be enclosed for each of these worthy causes.

Applicants are considered for membership in the category which meets their maximum qualifications.
I declare that in making application for membership, I have met the qualifications listed for the category to which I am applying.
Applicant Signature ____________________________
Recruiter (if known) ____________________________

Membership Categories:
[ ] Professional - $120 annually
An individual who 1) Holds a license or certification in a clinical laboratory profession issued by the California Department of Public Health or 2) Holds a baccalaureate degree from an accredited college or university and is eligible to sit for a CDPH approved examination; or 3) Holds a Masters or Doctorate degree in science, education or administration and is actively employed in clinical laboratory science.

[ ] Associate - $75 annually
An individual who has an interest in the field of clinical laboratory science and/or supporting the purposes or goals of CAMLT, but is not otherwise eligible for membership.

[ ] Student - $10 annually
An individual who possesses a valid training license from Laboratory Field Services or who is enrolled in an LFS approved program leading to licensing as a CLS, or MLT or certification as a CPT. Students at accredited universities or colleges that lead to eligibility for licensure or certification from LFS are also eligible to join as student members.

[ ] Lifetime - $1250 one time fee
Meets Professional member requirements and submits the one time application fee.

[ ] 20/20 Option - Additional $20 annually
An additional $20 payment at the time of application or renewal entitles the member a 20% discount on CAMLT state sponsored C.E. fees for the year (not applicable to Distance Learning).

Membership Dues
20/20 Option
Total payable to CAMLT
LAB-PAC Contribution (separate check)
E & R Foundation Donation (separate check)
